Position: SUPPLY CHAIN
MANAGER - A Markov chain is
"a stochastic model describing a
sequence of possible events in
which the probability of each
event depends only on the state
attained in the previous event."

October 2013 | By Estelle
Metayer. Analysis is often where
the ball drops as far as
competitive intelligence analysts
are concerned. Yet this is the only
way the team can truly extract
insights from the data and the
intelligence gathered, and have a
chance to play a role in the
company's strategic planning
process.
