Chemistry of the Extraction of
Gold - The National Academy of
Inventors (NAI) named two CU
Boulder faculty members to its
class of fellows for 2017.
Distinguished Professor Marvin
Caruthers of CU Boulder
Department of Chemistry and
Biochemistry was honored for his
pioneering contributions to the
chemical synthesis of DNA and
RNA, making it possible to
decode and encode genes ...

Oriental Journal of Chemistry is a
peer reviewed quarterly research
journal of pure and applied
chemistry. It publishes standard
research papers in almost all
thrust areas of current chemistry
of academic and commercial
importance.

ScienceDirect.com - Colloidal
gold is a sol or colloidal
suspension of nanoparticles of
gold in a fluid, usually water. The
colloid is usually either an intense
red colour (for particles less than
100 nm) or blue/purple (for larger
particles).
