

Mon, 16 Apr 2018 18:44:00 GMT woodland animals lesson pdf - The evaluation for this lesson is a woods scene and a sheet of animals, some woodland and some not. The kids are asked to determine which animals live in the woods and to cut them out and glue them in the proper location in the woods, e.g. a rabbit would be glued to the ground. When all the animals are glued in the proper place, they are to glue the entire scene into their science journal.
